Summary

Highly motivated front-end developer with a solid foundation in HTML, CSS, JavaScript, and modern frameworks like React.js and Next.js. Skilled in building responsive, user-focused web applications, with hands-on experience in e-commerce and entertainment websites. Passionate about creating clean, efficient code and delivering seamless user experiences. Dedicated to expanding technical knowledge and staying updated with the latest web development trends. Seeking opportunities to contribute and grow within a collaborative team environment.

Education

University of Sohag, Bachelor of Engineering	Sept 2020 – May 2025
Route Academy, Diploma in Front-End Development	mars 2024 – sept 2024

- Acquired comprehensive skills in front-end development, including HTML, CSS, JavaScript, React.js, and modern front-end frameworks

Experience

Instructor, Smart Family   Jan 2024 – Present

- Conducted hands-on training sessions focused on HTML and CSS, helping students build foundational web development skills.
- Assisted in developing and delivering course materials, ensuring students gained practical experience through real-world projects.

Intern , Code Alpha   sept 2024 – Present

- Assigned individual front-end development tasks, working independently to complete and submit them via a submission form.
- Developed interactive user interfaces using React.js, Tailwind CSS, and modern web technologies, ensuring high-quality code and performance.
- Gained practical experience in managing project timelines and delivering completed tasks autonomously.

Projects

Games-App   **github.com/Aboelwafa2936/games-app**

- Developed a desktop gaming application that allows users to play, manage, and track various games. Integrated features for multiplayer support, leaderboards, and game statistics.
- Tools Used: Html, .Css, BootStrap, JavaScript

Yummy

github.com/Aboelwafa2936/yummy

- Built a responsive food recipe website allowing users to browse, search, and filter through a wide variety of recipes. Implemented interactive features such as recipe saving and step-by-step cooking instructions.
- Tools Used: HTML, CSS, TailwindCss, jQuery

FrshCart

github.com/Aboelwafa2936/FreshCart

- Developed an e-commerce platform allowing users to browse products, manage their cart, and checkout. Integrated a product categorization system with filtering options and a testimonials section for customer reviews.
- Tools Used: React.js, Tailwind CSS, React Query

FilmVoyag

- Created a movie exploration platform that displays trending, top-rated, and upcoming movies. Users can view detailed movie information, track popular actors, and manage personal watchlists.
- Tools Used: React.js, Tailwind CSS, React Query ,TypeScript

Technologies

Languages: JavaScript, TypeScript

Technologies: Html , Css , BootStrap , TailwindCss , Jquery , Sass , React.js , Next.js , Git, Github
